

CATEGORY		Representative Vehicle if registered before 01/01/2004 (Vehicles Registered before 01/01/2004 can be used up to 2013)	Representative Vehicles if registered on or after 01/01/2004
A	 ≤ 25kW 0.16kW/kg	Two-wheeled motorcycle (sidecar permitted only in the case of a person with a disability) with an engine capacity greater than 125cc. and capable of a speed of at least 100km/h.	Two-wheeled motorcycle (sidecar permitted only in the case of a person with a disability) with an engine capacity greater than 125cc., and capable of a speed of at least 100km/h
A1	 ≤ 125cc. ≤ 11kW	Two-wheeled motorcycle (sidecar permitted only in the case of a person with a disability) with an engine capacity not exceeding 125cc. The machine must have (a) an engine capacity greater than 50cc., or (b) a maximum design speed of more than 45km/h.	Two-wheeled motorcycles (sidecar permitted only in the case of a person with a disability) with an engine capacity not exceeding 125cc. The machine must have (a) an engine capacity greater than 75cc., or (b) a maximum design speed of more than 45km/h.
M	 ≤ 50cc. 45KM/h	Two-wheeled mechanically-propelled vehicle, not capable of being manually propelled. The machine must have an engine capacity not exceeding 50cc., and have a maximum design speed not exceeding 45km/h.	Two-wheeled mechanically-propelled vehicle, not capable of being manually propelled. The machine must have an engine capacity not exceeding 50cc., and have a maximum design speed not exceeding 45km/h.
B	 ≤ 3500kg ≤ 1+8	Four-wheeled vehicles (cars/light vans) having a gross vehicle weight not exceeding 3,500kg., with passenger accommodation for not more than 8 persons, and capable of a speed of at least 100km/h.	Four-wheeled vehicles (cars/light vans) having a gross vehicle weight not exceeding 3,500 kg., with passenger accommodation for not more than 8 persons, and capable of a speed of at least 100km/h.
C		Vehicles, (trucks) with passenger accommodation for not more than 8 persons, having a gross vehicle weight of at least 10,000 kg., a length of at least 7 metres, and capable of a speed of at least 80km/h.	Vehicles (rigid trucks/large vans) with passenger accommodation for not more than 8 persons, a gross vehicle weight of at least 12,000 kg., a length of at least 8 metres, a width of at least 2.4 metres, capable of a speed of at least 80km/h. The vehicle must be fitted with anti-lock brakes, be equipped with a gearbox having at least 8 forward ratios, and recording equipment (tachograph). The cargo compartment shall consist of a closed box body, which is at least as wide and as high as the cab.
C1	 ≤ 7500kg	Vehicles, (larger vans/light trucks) with passenger accommodation for not more than 8 persons, having a gross vehicle weight of at least 4000 kg., but not exceeding 7,500 kg., and capable of a speed of at least 80km/h.	Vehicles (larger vans/light trucks) with passenger accommodation for not more than 8 persons, a gross vehicle weight of at least 4,000 kg., but not more than 7,500 kg., a length of at least 5 metres, and capable of a speed of at least 80km/h. The vehicle shall be fitted with anti-lock brakes, and with recording equipment (tachograph). The cargo compartment shall consist of a closed box body which is at least as wide and as high as the cab.
D		Vehicles (buses) having passenger accommodation for more than 16 persons being at least 9 metres in length and capable of a speed of at least 80km/h.	Vehicles (buses) having passenger accommodation for more than 16 persons, a length of at least 10 metres, a width of at least 2.4 metres and capable of a speed of at least 80km/h. The vehicle shall be fitted with anti-lock brakes, and recording equipment (tachograph).
D1	 ≤ 1+8	Vehicles (minibuses) having passenger accommodation for more than 8 persons, but not more than 16 persons, and capable of a speed of at least 80km/h.	Vehicles (minibuses) having passenger accommodation for more than 8 but not more than 16 persons, a gross vehicle weight of at least 4,000 kg., a length of at least 5 metres, and capable of a speed of at least 80km/h. The vehicle shall be fitted with anti-lock brakes, and with recording equipment (tachograph).
EB		A combination, made up of a category B test vehicle with a trailer, capable of a speed of at least 100km/h. which should be either (a) a 4 wheel drive vehicle and trailer, or a vehicle with a minimum length of at least 4.25 metres, and a trailer, which does not fall within Category B. The trailer used shall have a gross vehicle weight of at least 1,400 kg., and have internal dimensions of at least 2.4 metres by 1.2 metres.	Combinations, made up of a category B test vehicle which should be either (a) a minimum length of at least 4.25 metres, or (b) a 4 wheel drive vehicle, and a trailer with a gross vehicle weight of at least 1,400 kg., capable of a speed of at least 100km/h, which does not fall within Category B. The cargo compartment of the trailer shall consist of a closed box body which is at least as wide and as high as the motor vehicle, and have a length of at least 2.4 metres. (The closed box body may also be slightly less wide than the motor vehicle, provided that the view to the rear is only possible by use of the external rear-view mirrors of the motor vehicle).
EC		Articulated vehicle with at least 4 axles, having a combined gross vehicle weight of at least 18,000 kg., an overall length of at least 12 metres, and capable of a speed of at least 80km/h.	Either (a) an articulated vehicle, or (b)* a combination of a category C test vehicle and a trailer of at least 7.5 metres in length. Both the articulated vehicle and the combination shall have passenger accommodation for not more than 8 persons, at least 4 axles, a gross vehicle weight of at least 20,000 kg., a length of at least 14 metres, a width of at least 2.4 metres and be capable of a speed of at least 80km/h. The vehicle shall be fitted with anti-lock brakes, be equipped with a gearbox having at least 8 forward ratios, and recording equipment (tachograph). The cargo compartment shall consist of a closed box body which is at least as wide and as high as the cab.  <b>*Tests in the truck/trailer combination are only an option at present where off-road compounds are available.</b>
EC1	 ≤ 12000kg	A combination made up of a category C1 test vehicle with a trailer, capable of a speed of at least 80km/h. and with an overall length of at least 8 metres. The trailer used shall have a gross vehicle weight of at least 2,000 kg., and have internal dimensions of at least 2.4 by 1.2 metres.	A combination made up of a category C1 test vehicle, and a trailer with a gross vehicle weight of at least 2,000 kg. The combination shall be at least 8 metres in length, and shall be capable of a speed of at least 80km/h. The combination shall have a gross vehicle weight of not more than 12,000kg., and the gross vehicle weight of the trailer must not exceed the unladen weight of the drawing vehicle. The cargo compartment of the trailer shall consist of a closed box body which is at least as wide and as high as the cab, and have a length of at least 2.4 metres. (The closed box body may also be slightly less wide than the cab, provided that the view to the rear is only possible by use of the external rear-view mirrors of the motor vehicle.)
ED		A combination made up of category D test vehicle, and a trailer with a gross vehicle weight of at least 1,400 kg., capable of a speed of 80km/h. The trailer used shall have internal dimensions of at least 2.4m by 1.2m.  <b>Tests in this Category are only an option at present where off-road compounds are available.</b>	A combination made up of a category D test vehicle, and a trailer with a gross vehicle weight of at least 1,400 kg., capable of a speed of at least 80km/h. The cargo compartment of the trailer shall consist of a closed box body which is at least 2 metres wide, 2 metres high, and have a length of at least 2.4 metres.  <b>Tests in this Category are only an option at present where off-road compounds are available.</b>
ED1	 ≤ 12000kg	A combination made up of a category D1 test vehicle with a trailer, capable of a speed of at least 80km/h. The trailer used shall have a gross vehicle weight of at least 1,400 kg. and have internal dimensions of at least 2.4 metres by 1.2 metres.	A combination made up of a category D1 test vehicle, and a trailer with a gross vehicle weight of at least 1,400 kg., capable of a speed of at least 80km/h. The cargo compartment of the trailer shall consist of a closed box body which is at least 2 metres wide, 2 metres high, and have a length of at least 2.4 metres. The combination shall have a gross vehicle weight of not more than 12,000kg., and the gross vehicle weight of the trailer must not exceed the unladen weight of the drawing vehicle.
W		Works vehicles, and land tractors.	Works vehicles, and land tractors.
